

Graffiti – 10/02/2007

Graffiti is becoming a bigger problem in Pearland. It seemed to be isolated more to the West Side of town. However, last week one of the residents on Pearland Parkway had his house graffitied. What is sad about this, this particular resident was selling their house. The house has been unoccupied for several weeks.

There are several homes within Pine Hollow that are either vacant or are for sale and vacant. If you happen to live by one of these homes, please keep a look out for any vandals so that this does not happen to them
