

HURRICANE EVACUATION ZONES - Brazoria/Galveston Counties

Evacuation orders will come from our city officials. Evacuation will be based on zip codes. When that call comes, be prepared to leave immediately as your zone is called. City officials make decisions to evacuate 36-48 hours before a storm makes landfall. Hurricanes are extremely unpredictable and can become more dangerous in a matter of hours. It is not safe to wait. Plan to leave early if an evacuation order has been given.
